Deaf spaces

- By moving around **as groups of people signing** in public, Deaf people have created temporary Deaf spaces around them.
- A single Deaf person cannot set up such a 'bubble'.
- Deaf **controlled** bubble in the hearing world in which all the rules are Deaf.

(Kusters & De Meulder 2010)

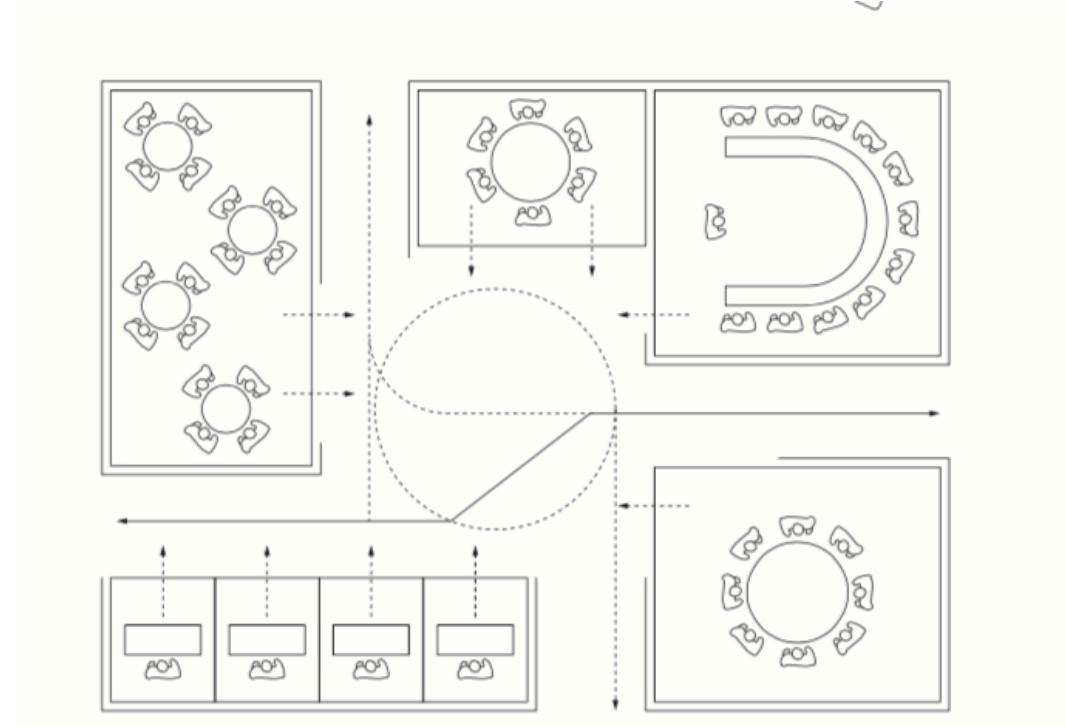

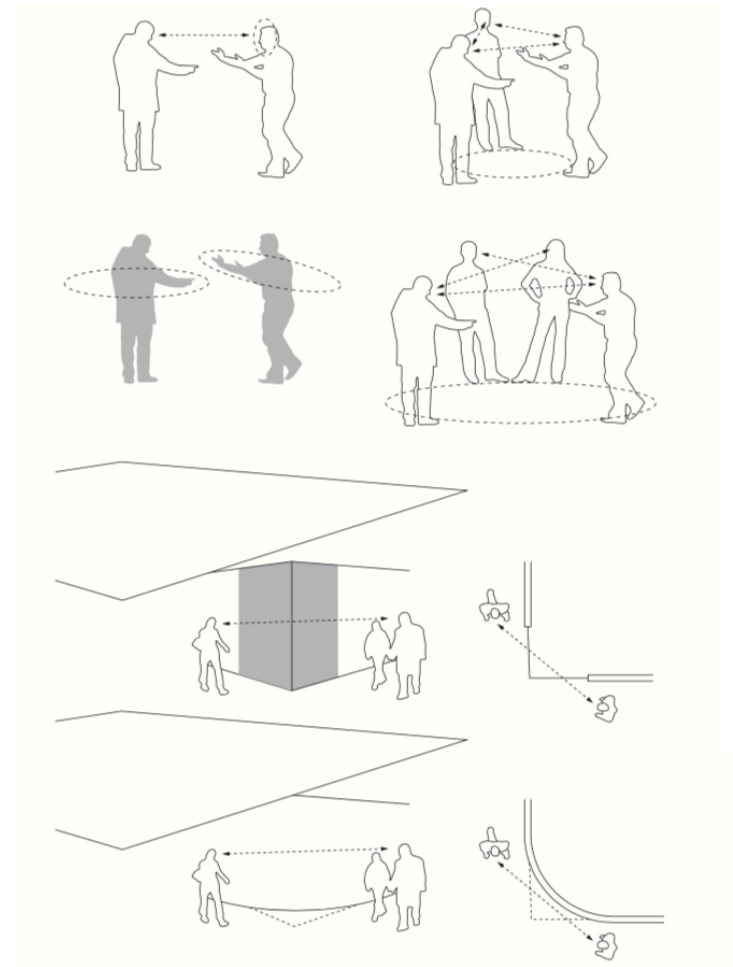

The first football huddle began in 1894. Gallaudet quarterback Paul Hubbard is credited with creating the football huddle during that season when Gallaudet went up against two different deaf schools.
